

COPACABANA

AGRONOMY AND RESISTANCE COMBINED IN A YELLOW CHERRY

PLANT

Open strong and productive plant. It presents high resistances to Cladosporium and intermediate resistance to ToBRFV.

FRUIT

Average weight of 12-14 g. very attractive fruit with a homogeneous yellow color. Tasty fruit with high brix and crunchy texture. Its firmness gives it a good shelf life and makes it ideal for mix.

RESISTANCES

HR: ToMV / Pf: A, E / FoI 0,1 / Vd /Va

IR: TYLCV / ToBRFV
